

DIAMOND NATURALS

GRAIN-FREE

WILD-CAUGHT WHITEFISH & SWEET POTATO FORMULA FOR DOGS

EVERYTHING YOUR PETS NEED. AND NOTHING THEY DON'T.™

Dogs don't need grains to be healthy. A protein-based diet free of grains most closely mimics a dog's ancestral diet. That's why the first ingredient in this Diamond Naturals Grain-Free formula is real fish for superior taste and nutrition. Sweet potatoes provide complex carbohydrates for all-day energy, while vegetables and fruits add powerful antioxidants for optimal health and vitality.

SPECIES-SPECIFIC PROBIOTICS

Diamond Naturals Grain-Free formulas are formulated with K9 Strain® Probiotics, beneficial bacteria that support digestive and immune systems and help your dog maintain an active lifestyle. K9 Strain Probiotics are developed specifically for dogs and processed under strict quality and safety standards to ensure purity. Every pound of Diamond Naturals Grain-Free is guaranteed to provide 80,000,000 colony forming units (CFU) of live, active probiotic cultures.

DIGESTIVE SUPPORT

Fiber ingredients, including prebiotic fiber from dried chicory root, help support healthy digestion.

PROTEIN BLEND

Marine-based protein sources for ideal lean body condition are also rich in omega-3 fatty acids.

OMEGA FATTY ACIDS

A blend of omega-6 and omega-3 fatty acids from fish meal, canola oil and flaxseed help keep the skin and coat healthy and shiny.

VEGGIES AND FRUITS

Sweet potatoes, tomatoes, blueberries and raspberries provide an excellent spectrum of phytonutrients.

Diamond Pet Foods was born in 1970 as the result of one family's commitment to the idea that every pet deserves the very best. PRODUCTION CODE

CHANGING TO DIAMOND NATURALS GRAIN-FREE WILD-CAUGHT WHITEFISH & SWEET POTATO FORMULA FOR DOGS

Changing your pet's diet should be a gradual process. Start by adding a small amount of your pet's new food to their current food. Gradually increase the new food amount and decrease the current food amount at each feeding. Continue this method for approximately one week. For sensitive dogs, extend the period to 10 to 14 days.

Feeding Guide

Standard Measuring Cups/Day
