## Feeding Guide (cans/day)

Amount of food your dog requires will depend on age, activity level, environment and breed. Feed at room temperature and refrigerate unused portion. Keep fresh water available at all times.

Weight of Adult Dog (lbs.)*	Toy (2 - 12 lbs.)	Small (12 - 25 lbs.)	Medium (25 - 50 lbs.)	Large (50 - 100 lbs.)
When feeding canned food only (13.2 oz. can)	¾ - 1	1 - 1¼	1¼ - 2¼	2¼ - 4¼

\*For puppies, feed up to two times the recommended adult feeding amount by body weight. As your puppy gets older, gradually decrease the amounts to near adult amounts.
